JOHN CARTER: The creature with the spear was huge. There were many other similar creatures. They had ridden behind me on the backs of large animals. Each of them carried a collection of strange-looking weapons. The one with the large spear got down from the back of his animal and began walking toward me. He was almost five meters tall and a dark green color. Huge teeth stuck out of his face, and his expression showed much hate and violence. I immediately knew I was facing a terrible warrior. He began moving quickly toward me with the spear. I was completely unarmed. I could not fight. My only chance was to escape. I used all my strength to jump away from him. I was able to jump almost thirty meters. The green Martian stopped and watched my effort. I would learn later that the look on his face showed complete surprise. The creatures gathered and talked among themselves. While they talked, I thought about running away. However, I noticed several of them carried devices that looked very much like rifles. I could not run. Soon, all but one of the creatures moved away. The one who had threatened me stayed. He slowly took off a metal band from his arm and held it out to me. He spoke in a strange language.

(SOUND)

JOHN CARTER: Slowly, he laid down his weapons. I thought this would have been a sign of peace anywhere on Earth... why not on Mars, too? I walked toward him and in a normal voice announced my name and said I had come in peace. I knew he did not understand, but like me, he took it to mean that I meant no harm. Slowly, we came together. He gave me the large metal band that had been around his arm. He turned and made signs with his hands that I should follow him. Soon we arrived at the large animal he had been riding. He again made a sign with his hands that I should ride on the same animal behind him. The group turned and began riding across the land. We moved quickly toward mountains in the distance.

(MUSIC)

JOHN CARTER: The large animals we rode moved quickly across the land. I could tell from the surrounding mountains that we were on the bottom of a long dead sea. In time we came to a huge city. At first I thought the city was empty. The buildings all were empty and in poor repair. But soon I saw hundreds of the green warriors. I also saw green women and children. I soon learned about many cities like this. The cities were built hundreds of years ago by a people that no longer existed. The green Martians used the cities. They moved from one empty city to another, never stopping for more than a day or two. We got down from our animals and walked into a large building. We entered a room that was filled with fierce green warriors.

(SOUND)

It was not difficult to tell that these were the leaders of the green Martians. One of them took hold of my arm. He shook me and lifted me off the ground. He laughed when he did so. I was to learn that green Martians only laugh at the pain or suffering of others. This huge warrior threw me to the ground and then took hold of my arm again to pick me up. I did the only thing I could do. I hit him with my closed fist as hard as I could.

(SOUND)

The green warrior fell to the floor and did not move. The others in the room grew silent. I had knocked down one of their warriors with only my hand. I moved away from him and prepared to defend myself as best I could. But they did not move. The green Martian that had captured me walked toward me. He said in a clear voice:

TARS TARKAS: "TARS TARKAS -- TARS TARKAS."

JOHN CARTER: Several days later, Sola came to me with a look of great concern.

SOLA: John Carter...come with me. A great battle is about to take place. An enemy is coming near this city. We must prepare to fight and we must be ready to flee.

JOHN CARTER: Sola, what enemy is this?

SOLA: A race of red men who travel our world in flying machines. A great number of their machines have come over the far mountain. Take your weapons with you and hurry.

JOHN CARTER: I collected my sword and a spear. I hurried out of the building and joined a group of warriors moving toward the end of the city. Far in the distance I could see the air ships. They were firing large guns at the green warriors. I heard huge explosions. The green warriors were firing back with their deadly rifles. The air was filled with the sound of violent battle.

(SOUND)

Suddenly a huge air ship exploded. It came down, crashing near me. Red Martians were falling from the side of the huge ship. And then it exploded!
