

## READING PART 6

For each question, write the correct answer.

### WHY I LOVE HARRY POTTER

At eight years old, I **1-** diagnosed with dyslexia. I found reading really difficult. One day, after someone recommended it to her, my mum brought home Harry Potter and the Philosopher's Stone **2-** us to read together.

I was hooked. Within three months, we **3-** co-read the entire book and I was asking for more. Over the years, my confidence and ability grew. By book four, I was reading on my own. I was regularly found fast asleep on the latest copy.

Reading is **4-** an important skill at school. The stories and characters brought to life in **5-** series showed me that reading could be something I could enjoy at a time when it felt so difficult.

By the final instalment, I was a true Potterhead. I finished my GCSEs and read the entire book, cover to cover **6-** three days. Two years after that, I got my A-levels and went off to the University of Sheffield. If it hadn't been for Harry Potter, I never would have got there.
