English Classes

Every day groups 5, 6, 7 and 8 have got classes from 10:00 to 12:00 in the morning and from 4:00 to 6:00 in the afternoon. In class we do a lot of different things like watching films, singing songs, writing reviews, learning grammar and of course practising our oral English. Also in class we have got some rules; like be polite, respect our classmates, be punctual and don't shout.

You also can watch TV because groups 1, 2, 3 and 4 start English classes 45 minutes before us.

You have free time from 15:00 to 16:00, too. At this time, you can do all inside and outside hotel activities: play cards with your friends watch TV and tell the monitors if you have any problems. After you have a shower and until you have dinner you also have free time. If you do a lot of sport at this time you will sweat and this is very uncomfortable.

FILM REVIEWS

The Dark Knight

The film is based on a history that includes Batman (who wants to leave his job), The Joker (a criminal who wants to prove the honest Gotham), Alfred, Lucius Fox (a person who helps Batman in his missions), Harvey Dent (the real hero of Gotham) and Gordon (the commissioner that is in trouble with Harvey).

The film treats the plan of Joker (steal money of the bank, fire money and people...). Harvey is going to marry Rachel, who dies in an accident (that's why Harvey and Gordon are in trouble), Harvey wants a revenge for kill Rachel

and melt his face. Finally, the Joker is caught by Batman and Gordon's family is saved, also by Batman.

Favourite scene: The end, when Gordon says that Batman is not a hero, however, he's a silent guardian.

Opinion: I think that the film is entertaining, but, sometimes, there are moments of silence and tension. And that's why the film becomes in a really good work of art.

Mario Martinez Blaya – (Group 7)

Batman is the main character of the film and he fights versus the Joker. The Joker and other persons steal a bank and they wanted to kill Batman but they try to kill the mayor, but Commissioner Gordon saves him. The Joker said that if Batman doesn't reveal his identity he start to kill. The police caught the Joker when he was chasing Harvey Dent (a lawyer) but he escaped out of the prison. Harvey Dent and his girlfriend Rachel were in a factory with dynamite. It was a trick prepared for the Joker in which only one of them can save. Batman went to the factory and save Harvey, but Rachel died. Harvey's face becomes scarred. Harvey goes to a hospital and the Joker visit him and tell he that Rachel's death was Gordon's fault.

So, Harvey made Gordon went to a place for save his family. In the end of this scene Harvey Dent died. A lot of people go into a cruiser escaping for the Joker, but the engines stopped and Joker said that if people in the other cruiser don't die, the other person in the group would die.

My favourite scene is when Batman and Alfred are reading a Rachel's letter because is quite emotive because they are remembering her.

I like the film but it has got lots of action so when I was watching this I didn't remember the previous scene.
